

## IVF Patient Checklist

IVF Office 301-400-2144 (Petrina Thompson, secretary)

A.R.T Website: [www.bestivf.com](http://www.bestivf.com)

### Work-up:

The following tests must be completed prior to starting or repeating a cycle with us here at WRNMMC. Please call 301-400-2151 with any questions.

**\*\*\*PLEASE FAX ACTUAL TEST RESULTS TO 301-400-1800\*\*\***

<b><i>FEMALE Tests:</i></b>	FREQUENCY of TESTING	COMPLETED	NEED
<b>ABO/RH Type &amp; ANTIBODY screen</b> <i>*Very important to have both parts of testing completed. We see frequent ordering mistakes.*</i>	<1 year old		
Rubella IGG and RPR	<1 year old		
Pap Smear & GC/Chlamydia cultures	<1 year old		
<b>History and Physical</b> (BMI must be <40)	<1 year old		
<b>Day 3 FSH LH E2(Estradiol)</b> (Have these labs drawn on the 3 <sup>rd</sup> day of your cycle)	<1 year old		
Hepatitis BsAg & Cab	<1 year old		
<b>TSH &lt;2.5 &amp; PROLACTIN</b>	<1 year old		
HIV AB 1 & 2	<1 year old		
CMV IGG/IGM	<1 year old		
HTLV AB 1 & 2	<1 year old		
Mammogram (women ≥40y.o. or if clinically indicated)			
Saline Sonogram & pelvic ultrasound	<1 year old		
<b><i>MALE Tests:</i></b>			
Hepatitis BsAg & Cab	<1 year old		
HIV AB 1&2	<1 year old		
Semen Analysis	<2 years old		
CMV IGG/IGM	<1 year old		
HTLV AB 1&2	<1 year old		

\*All patients are required to attend an IVF Orientation once, **AND** keep all tests current (<1 year). For the best outcome we ask you to schedule tests here at WRNMMC if possible. Petrina Thompson, our IVF secretary, can be reached at 301-400-2144 to schedule all of these tests.

\*If you have severe male factor infertility or the female partner will be >35y.o. at the time of a cycle we recommend that you pursue genetic counseling prior to arrival at WRNMMC. If one partner is Sickle Cell or Cystic Fibrosis (+) or a known carrier of these genes then the other partner **MUST** be checked as well.

\*There is a **NON**-refundable deposit that is 10% of the cost of a regular IVF cycle. The deposit is due at Orientation or Male Evaluation appointment (whichever comes first). This deposit is only good for one year. If you do not proceed with an IVF cycle within the one year period another deposit of 10% will need to be collected.
